Why Buy GJ Plastics Cable Displays?

Why choose Impact Modified to Acrylic XT?

All our excellent value floor to ceiling and wall to wall **cable display-poster holder** pockets Are Manufactured in Impact Modified Acrylic this offers you a break resistance 3 times that of conventional Acrylic XT pockets (see chart for Charpy impact strength), ensuring you of peace of mind against damages. REMEMBER not all cable displays Supply Impact Modified Acrylic pockets the extra peace of mind provider.

Each **cable display** kit contains

2 x 4 metre floor to ceiling cables

Small **cable poster holder** clamps (quantity dependent on cable poster kit)

Impact Modified Acrylic **poster holder** pockets.(quantity dependent on cable poster kit)

Allen keys.

A Successful Synthesis

Impact Modified sheets are high-quality, solid plastics sheets extruded from impact-modified acrylic (PMMA). They combine the excellent product properties of Acrylic with the toughness of polycarbonate.

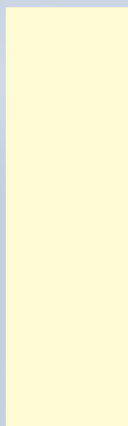

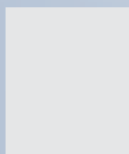

Ideal for display solutions offering **3 times the break resistance** of Acrylic XT.

Instead of having to choose between WEATHER-RESISTANT or TOUGH,

Impact strength*

* Charpy impact strength
