

Acrylic Signs gets you noticed.

Acrylic Signs provide a modern, stylish feel adding a touch of style & class to any business or organisation.

Acrylic also known as Perspex offers the perfect solution for inside or outdoors and is produced on a wide range of colours if required.

GJ Plastics Ltd can manufacture from 1 off to volume on acrylic signs to your specific exacting requirement. We can machine the acrylic or Perspex panel to any size up to 3 metre x 1.5 metre any shape or design.

Direct Print.

Utilising the latest UV ink technology (not solvent inks) we can print your text and logo's in high quality full colour.

One additional but very important benefit of UV inks is part of our ongoing commitment to environmental best practices and all our acrylic signage is fully recyclable.

The sign can be printed onto a clear acrylic panel in normal or reverse print Our HP FB 500 flatbed printer is fitted with white ink, so the print can be backed with white ensuring an even more vibrant print.

If it is a coloured acrylic panel we can print on one or if required both sides.

Printed acrylic signs are an ideal solution for external signage, the UV stable acrylic and inks are designed to last in the Great British weather.
